The image shows the Postman application interface. On the left sidebar, there are sections for 'COLLECTIONS' (with 'My Collection' below it), 'ENVIRONMENTS', 'SPECS', and 'FLOWS'. The main workspace displays a DELETE request to 'http://localhost:8080/students/1'. The 'Params' tab is active, showing an empty table for Query Params. The response section shows a '200 OK' status with a response time of 130 ms and a body of '1 deleted'. The bottom status bar includes 'Connect Git', 'Console', and 'Terminal' buttons. On the right, there is a 'New Chat' button and a chat area with a prompt to describe what is needed.
